

Stormwater Tip of the Month – 3/2014

Scoop the Poop

Always clean up after your dog. Dog poop that is not picked up but left on the ground eventually is washed into the storm sewer system, where it makes its way into our streams, rivers, and oceans. Pet waste can be disposed of in a non-leaking trash receptacle or flushed down a toilet. If you are caught not picking up after your dog, the Borough's Code provides for a fine as high as \$300 per violation plus the costs of prosecution to be issued.
