

Stormwater Tip of the Month 4/2014

On Saturday, April 26, from 9 am to Noon, the Darby Creek Valley Association will be holding its annual Stream Cleanup Event at local sites along the Darby Creek.

Volunteers are needed to gather and remove natural and man-made debris from the creek and its banks. This is a great opportunity to have some fun and to enjoy a good feeling of accomplishment from removing winter's debris and welcoming the onset of Spring.

Families are encouraged to participate.

More information on the event and how to sign up to volunteer is available at the Darby Creek Valley Association's website at www.dvca.org
