

Stormwater Tip:

The Eastern Delaware County Stormwater Collaborative (EDCSC) is a partnership of municipalities seeking efficient ways to better manage stormwater and improve water quality and the local environment within the Darby Creek watershed. The EDCSC works ensure compliance under the Municipal Separate Storm Sewer System (MS4) PA General permit through outreach, education, and on the ground improvements. Uncontrolled stormwater runoff is the leading cause of pollution to our local waterways and working to reduce the amount of stormwater that enters our creeks is vital to improving water quality and reducing community flooding. Municipal members include: Collingdale Borough, Darby Borough, Darby Township, East Lansdowne Borough, Glenolden Borough, Haverford Township, Morton Borough, Norwood Borough, Sharon Hill Borough, Upper Darby Township, and Yeadon Borough.

The EDCSC meets monthly on the second Tuesday. All meetings are open to the public.
